### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the references of record neither reveal nor render obvious a real time data compression method having the recited data format, identifying block start times and positions in addition to sampling time interval values.

U.S. Patent 6,681,363 to Ikeda et al provides start and end flags [Figure 3] for a data format. U.S. Patent 6,366,883 to Campbell et al records start and end positions for phoneme segments [S14: Fig. 4]. U.S. Patent 6,198,877 to Kawamura et al defines start entry points and end positions [col. 13, lines 39-47]. U.S. Patent 5,940,232 to Okuyama assigns recording start time codes [Figure 3]. U.S. Patent 5,758,008 to Tozaki et al discloses packet start code prefix [SJP] and length [S JL] fields [Figure 3A].

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
